

Topic of the Month: Advanced Preflight after Maintenance

Mr. Isbell will lead the discussion involving the following teaching points: Discuss the consequences of inadequate preflight inspections of aircraft that are being returned to service after maintenance. Discuss common problems that have led to accidents. Encourage pilots to coordinate with mechanics before flying aircraft that have recently been maintained. Encourage pilots pay particular attention to aircraft components that may have been affected by recent maintenance.

Directions: Lane Aviation is located on the right side as you drive toward the terminal on International Gateway. Turn right into Lane Aviation entrance, bear to right of flag pole, enter building with maroon awning (4387) over the door, up the stairs to second floor, room on the left.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
